

Wolf Creek Park

North Entrance: 2409 South SR 53, Fremont, OH 43420

South Entrance: 2701 SR 53, Fremont, OH 43420

Wolf Creek Park is located south of Fremont on State Route 53. The Sandusky County Park District leased the property from the ODNR on August 1, 1975, making it our second county park.

This park is designated as a Scenic River Site due to its important location in the Sandusky River watershed. The trails offer great opportunities for hiking, birding, and seeing spring wildflowers. Previously, the trails were part of the Ohio Buckeye Trail, but it was later re-routed to the NCIT. Wolf Creek also has a canoe launch, picnic area, and a small primitive campground.
